Supplemental disclosures with respect to cash flows (Note 9)

PACIFIC BOOKER MINERALS INC.
NOTES TO THE FINANCIAL STATEMENTS
(Unaudited - Prepared by Management)
SIX MONTH PERIOD ENDED JULY 31, 2006

1. BASIS OF PRESENTATION

The financial statements contained herein include the accounts of Pacific Booker Minerals Inc. (the "Company").

The interim period financial statements have been prepared by the Company in accordance with Canadian generally accepted accounting principles ("Canadian GAAP"). All financial summaries included are presented on a comparative and consistent basis showing the figures for the corresponding period in the preceding year. The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of annual financial statements. Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These interim period statements should be read together with the audited financial statements and the accompanying notes included in the Company's latest annual report. In the opinion of the Company, its unaudited interim financial statements contain all adjustments necessary in order to present a fair statement of the results of the interim periods presented.

The ability of the Company to realize the costs it has incurred to date on its properties is dependent upon the Company being able to identify a commercial ore body, to finance its exploration costs and to resolve any environmental, regulatory or other constraints which may hinder the successful development of the mineral property interest. To date, the Company has not earned significant revenues and is considered to be in the exploration stage

These financial statements have been prepared assuming the Company will continue on a going-concern basis. The Company has incurred losses since inception and the ability of the Company to continue as a going-concern depends upon its ability to develop profitable operations and to continue to raise adequate financing. Management is actively targeting sources of additional financing through alliances with financial, exploration and mining entities, or other business and financial transactions which would assure continuation of the Company's operations and exploration programs. In order for the Company to meet its liabilities as they come due and to continue its operations, the Company is solely dependent upon its ability to generate such financing.

There can be no assurance that the Company will be able to continue to raise funds in which case the Company may be unable to meet its obligations. Should the Company be unable to realize its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded on the balance sheets.

PACIFIC BOOKER MINERALS INC.
NOTES TO THE FINANCIAL STATEMENTS
(Unaudited - Prepared by Management)
SIX MONTH PERIOD ENDED JULY 31, 2006

2. SIGNIFICANT ACCOUNTING POLICIES

Mineral property interests and deferred exploration costs

The Company records mineral property interests, which consist of the right to explore for mineral deposits, at cost. The Company records deferred exploration costs, which consist of costs attributable to the exploration of mineral property interests, at cost. All direct and indirect costs relating to the acquisition and exploration of these mineral property interests are capitalized on the basis of specific claim blocks until the mineral property interests to which they relate are placed into production, the mineral property interests are disposed of through sale or where management has determined there to be an impairment. If a mineral property interest is abandoned, the mineral property interests and deferred exploration costs will be written off to operations in the period of abandonment.

On an ongoing basis, the capitalized costs are reviewed on a property-by-property basis to consider if there is any impairment on the subject mineral property interest. Management's determination for the impairment is based on: i) whether the Company's exploration programs on the mineral property interests have significantly changed, such that previously identified resource targets are no longer being pursued; ii) whether exploration results to date are promising and whether additional exploration work is being planned in the foreseeable future; or iii) whether remaining lease terms are insufficient to conduct necessary studies or exploration work.

The recorded cost of mineral property interests and deferred exploration costs is based on cash paid and the value of share consideration issued for mineral property interest acquisitions and exploration costs incurred. The recorded amount may not reflect recoverable value as this will be dependent on future development programs, the nature of the mineral deposit, commodity prices, adequate funding and the ability of the Company to bring its projects into production.

Cost recoveries consist of mining tax credits from the Province of British Columbia. Claims for tax credits are accrued upon the Company attaining reasonable assurance of collection from the Canada Revenue Agency and from the Province of British Columbia. As at July 31, 2006 and January 31, 2006, cost recoveries related solely to the Morrison claims and are recorded as a cost recovery of deferred exploration costs.

Asset retirement obligation

CICA Handbook Section 3110 "Asset Retirement Obligations" is effective for years beginning on or after January 1, 2004. This standard requires recognition of a liability at its fair value for the obligation associated with the retirement of a tangible long-lived asset. A corresponding asset retirement cost would be added to the carrying amount of the related asset and amortized to expense over the useful life of the asset. The Company has determined that there are no asset retirement obligations at July 31, 2006.

NOTES TO THE FINANCIAL STATEMENTS
(Unaudited - Prepared by Management)
SIX MONTH PERIOD ENDED JULY 31, 2006

2. SIGNIFICANT ACCOUNTING POLICIES

Stock-based compensation

The Company grants options in accordance with the policies of the TSX Venture Exchange ("TSX-V") and the company's stock option plan. The fair value of stock options granted is determined using the Black-Scholes option pricing model and recorded as stock-based compensation expense over the vesting period of the stock options.

Comparative figures

Certain of the prior periods' comparative figures have been reclassified to conform to the financial statement presentation adopted in the current period.

3. LOSS PER SHARE

Loss per share is calculated using the weighted average number of shares outstanding during the period.

4. MINERAL PROPERTY INTERESTS

	Balance January 31, 2006	Additions	Balance July 31, 2006
Canada			
Morrison claims	\$ 4,832,500	\$ -	\$ 4,832,500
	\$ 4,832,500	\$ -	\$ 4,832,500

Hearne Hill claims

The Company holds a 100% interest in the Hearne Hill claims located in the Omineca District of the Province of British Columbia ("B.C."). The Company earned its 100% interest through an option agreement and is required to pay advance royalty payments of \$100,000 per annum. The royalty payments may offset any net smelter royalty obligations. The optionor retains a 4% net smelter returns ("NSR") royalty which may be acquired by the Company for a cash payment of \$2,000,000. During the year ended January 31, 2006, management decided to write off the property to operations. The Hearne Hill claims are currently subject to a legal claim (Note 11).

4. MINERAL PROPERTY INTERESTS (cont'd...)

Morrison claims

During the year ended January 31, 2005, the Company acquired the remaining 50% interest in the Morrison claims. In order to obtain the remaining 50% interest, the Company agreed to:

- i) pay \$1,000,000 to Falconbridge Limited (formerly Noranda Mining and Exploration Inc.) ("Falconbridge") (paid), issue 250,000 common shares to Falconbridge (issued) and issue 250,000 share purchase warrants to Falconbridge exercisable at \$4.05 per share until June 5, 2006 (issued).
- ii) pay \$1,000,000 to Falconbridge on or before October 19, 2005 (paid);
- iii) pay \$1,500,000 to Falconbridge on or before April 19, 2007 (accrued); and
- iv) issue 250,000 common shares to Falconbridge on or before commencement of commercial production as defined in the agreement.

In the event the trading price of the Company's common shares is below \$4.00 per share, the Company is obligated to pay, in cash, the difference between \$1,000,000 and the average trading price which is less than \$4.00 per share multiplied by 250,000 common shares.

To ensure that Falconbridge will receive full payment for the mineral claims, the Company has agreed to execute a re-transfer of its 100% interest to Falconbridge if the Company fails to comply with the terms of the agreement. This transfer will be held by a mutually acceptable third party.

On January 7, 2005, the Company signed an agreement to acquire an option for a 100% interest in additional claims in the Omineca District of B.C. As consideration, the Company issued 45,000 common shares at a value of \$180,000.

9. SUPPLEMENTAL DISCLOSURES WITH RESPECT TO CASH FLOWS

The significant non-cash transactions for the six month period ended July 31, 2006 were as follows:

- a) The Company completed a private placement of 970,200 units for total proceeds of \$3,880,800, of which \$280,000 was received prior to January 31, 2006.
- b) The Company recorded \$276,518 of deferred exploration expense as accounts payable and \$4,064 of deferred exploration expense as owing to related parties.
- c) The Company recorded \$1,728 of amortization expense on property and equipment as deferred exploration costs.
- d) The Company expended exploration advances of \$89,013 to deferred exploration costs.

The significant non-cash transactions for the six month period ended July 31, 2005 were as follows:

- a) The Company completed a private placement of 228,000 units for total proceeds of \$946,200, of which \$574,775 was received prior to January 31, 2005.
- b) The Company issued 45,000 common shares for a total value of \$180,000 for mineral property interests acquisition costs.
- c) The Company recorded \$1,040 of amortization expense on property and equipment as deferred exploration costs.

10. SEGMENTED INFORMATION

All of the Company's operations are in the resource sector. The Company operates in Canada and the loss from operations for the current periods relate 100% to Canada.

11. CONTINGENCY

During the six month period ended July 31, 2006, an optionor of the Hearne Hill property (Note 4) which adjoins the Company's Morrison property has filed a Writ of Summons and Statement of Claim against the Company in respect to the option agreement on the Hearne Hill property, which it alleges is of no further force and effect and seeks the return of the Hearne Hill property and the area of interest around the Hearne Hill claims. The Writ of Summons and Statement of Claim also includes a claim for the return of the Morrison property. The amount of the claim has not been identified. Management of the Company has indicated that it intends to defend the legal action. The Company is of the view that the optionor has no right whatsoever to the Morrison property. The ultimate liability, if any, arising from this claim is not presently determinable and will be recorded at the time of that determination. The Company has filed a Counterclaim against the optionor for damages in the amount of \$55,356 for breach of a contract.

SIX MONTH PERIOD ENDED JULY 31, 2006

12. SUBSEQUENT EVENTS

Subsequent to the end of the period, the Company made the final cash payment to Falconbridge Limited (formerly Noranda Mining and Exploration Inc.) as required by agreement for the Morrison property. (Note 4 & 6)

13. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES

These interim financial statements have been prepared in accordance with Canadian GAAP. Material variations in the accounting principles, practices and methods used in preparing these interim financial statements from principles, practices and methods accepted in the United States ("United States GAAP") are described and quantified below.

Balance sheets

The impact of the differences between Canadian GAAP and United States GAAP on the balance sheets would be as follows:

	July 31, 2006 Restated			January 31, 2006 Restated		
	Balance, Canadian GAAP	Adjustments	Balance, United States GAAP	Balance, Canadian GAAP	Adjustments	Balance, United States GAAP
Current assets	\$ 6,366,711	\$ -	\$ 6,366,711	\$ 532,314	\$ -	\$ 532,314

Restatements

- a) The Company has restated its reported results under United States GAAP for fiscal 2006 to properly account for the application of Emerging Issues Task Force ("EITF") No. 04-02 – "Whether Mineral Rights are Tangible or Intangible Assets". Previously, the Company adopted the provisions of EITF 04-02 for fiscal 2006. The Company has determined that the provisions of EITF 04-02 should have been adopted for fiscal 2005.

The effect of the restatements for United States GAAP purposes was an increase in mineral property interests of \$4,512,500 and a reduction of deficit of \$4,512,500 as at January 31, 2006 & 2005; and a reduction in loss for the year ended January 31, 2005 of \$4,512,500.

The restatements under United States GAAP had no effect on the Company's primary financial statements and related notes prepared in accordance with Canadian GAAP (other than Note 13.)

PACIFIC BOOKER MINERALS INC.
NOTES TO THE FINANCIAL STATEMENTS
(Unaudited - Prepared by Management)
SIX MONTH PERIOD ENDED JULY 31, 2006

13. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (cont'd...)

Mineral property interests and deferred exploration costs

Under Canadian GAAP, mineral property interests and deferred exploration costs, including acquisition and exploration costs, are carried at cost and written down if the properties are abandoned, sold or if management determines there to be an impairment in value. Previously, under United States GAAP, mineral property interests and deferred exploration costs are expensed as incurred. Once a final feasibility study has been completed, additional costs incurred to bring the mine into production are capitalized as development costs. Costs incurred to access ore bodies identified in the current mining plan after production has commenced are considered production costs and are expensed as incurred. Costs incurred to extend production beyond those areas identified in the mining plan where additional reserves have been established are deferred as development costs until the incremental reserves are produced. Capitalized costs are amortized using the unit-of-production method over the estimated life of the ore body based on proven and probable reserves.

Effective for reporting periods beginning after April 29, 2004, the Company has adopted the provisions of EITF 04-02 "Whether Mineral Rights are Tangible or Intangible Assets" which concluded that mineral rights are tangible assets. Accordingly, effective for the fiscal year ended January 31, 2005, the Company capitalizes costs related to the acquisition of mineral rights, and the July 31, 2005 numbers have been restated to comply with this provision.

Flow-through shares

Under Canadian GAAP, flow-through shares are accounted for as part of the issuance of capital stock at the price paid for the shares, net of any future income tax liability. Under United States GAAP, any difference between the market price of the Company's stock and the fair value of the flow-through shares must be recorded as a liability, if a premium is paid by investors, or as an asset if investors are purchasing the shares at a discount. The asset or liability is charged to income as the flow-through share proceeds are expended on qualifying expenditures.

Stock-based compensation

Under United States GAAP, Statements of Financial Accounting Standards No. 123, "Accounting for Stock-based Compensation" ("SFAS 123") requires companies to establish a fair market value based method of accounting for stock-based compensation plans. Effective February 1, 2003, the Company elected to follow the fair value method of accounting for stock-based compensation.

Under Canadian GAAP, the Company accounts for stock-based compensation as disclosed in Note 2. Accordingly, there is no difference between Canadian GAAP and United States GAAP in the accounting for stock-based compensation for the six month periods ended July 31, 2006 and 2005.

NOTES TO THE FINANCIAL STATEMENTS
(Unaudited - Prepared by Management)
SIX MONTH PERIOD ENDED JULY 31, 2006

13. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (cont'd...)

Asset retirement obligations

Under United States GAAP, Statement of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations" requires companies to record the fair value of the liability for closure and removal costs associated with the legal obligations upon retirement or removal of any tangible long-lived assets. Under this standard, the initial recognition of the liability is capitalized as part of the asset cost and depreciated over its estimated useful life. The Company has determined that there are no asset retirement obligations as at July 31, 2006 and January 31, 2006.

Under Canadian GAAP, the Company was not required to record asset retirement obligations as at January 31, 2004. As described in Note 2, the Company has determined that there were no asset retirement obligations as at July 31, 2006 and January 31, 2006.

Contributed executive services

Pursuant to SAB Topic 1:B(1) and the last paragraph of SAB 5:T, the Company is required to report all costs of conducting its business. Accordingly, the Company has recorded the fair value of contributed executive services provided to the Company at no cost as compensation expense, with a corresponding increase to contributed surplus, in the amount of \$19,500 and \$19,500 for the six months ended July 31, 2006 and 2005, respectively.

New accounting pronouncements

In December 2004, Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 153, "Exchanges of Nonmonetary Assets – an amendment of APB Opinion No. 29" ("SFAS 153") which amends Accounting Principles Board Opinion No. 29, "Accounting for Nonmonetary Transactions" to eliminate the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. A nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. SFAS 153 is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005.

SIX MONTH PERIOD ENDED JULY 31, 2006

13. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (cont'd...)

New accounting pronouncements (cont'd...)

In December 2004, FASB issued Statement of Financial Accounting Standards No. 123R, "Share Based Payment" ("SFAS 123R"). SFAS 123R supersedes APB 25 and its related implementation guidance by requiring entities to recognize the cost of employee services received in exchange for awards of equity instruments based on the grant-date fair value of those awards (with limited exceptions) and revises SFAS 123 as follows:

- i) Public entities are required to measure liabilities incurred to employees in share-based payment transactions at fair value and nonpublic entities may elect to measure their liabilities to employees incurred in share-based payment transactions at their intrinsic value whereas under SFAS 123, all share-based payment liabilities were measured at their intrinsic value.
- ii) Nonpublic entities are required to calculate fair value using an appropriate industry sector index for the expected volatility of its share price if it is not practicable to estimate the expected volatility of the entity's share price.
- iii) Entities are required to estimate the number of instruments for which the requisite service is expected to be rendered as opposed to accounting for forfeitures as they occur.
- iv) Incremental compensation cost for a modification of the terms or conditions of an award is measured by comparing the fair value of the modified award with the fair value of the award immediately before the modification whereas SFAS 123 required that the effects of a modification be measured as the difference between the fair value of the modified award at the date it is granted and the award's value immediately before the modification determined based on the shorter of (1) its remaining initially estimated expected life or (2) the expected life of the modified award.

SFAS 123R also clarifies and expands guidance in several areas, including measuring fair value, classifying an award as equity or as a liability and attributing compensation cost to reporting periods. SFAS 123R does not change the accounting guidance for share-based payment transactions with parties other than employees provided in SFAS 123 as originally issued and Emerging Issues Task Force No. 96-18 "Accounting for Equity Instruments that are Issued to Other Than Employees for Acquiring or in Conjunction with Selling, Goods and Services" ("EITF 96-18"). SFAS 123R also does not address the accounting for employee share ownership plans which are subject to Statement of Position 93-6, "Employers' Accounting for Employee Stock Ownership Plans". Public entities (other than those filing as small business issuers) will be required to apply SFAS 123R as of the first annual reporting period that begins after June 15, 2005. Public entities that file as small business issuers will be required to apply SFAS 123R in the first annual reporting period that begins after December 15, 2005. For nonpublic entities, SFAS 123R must be applied as of the beginning of the first annual reporting period beginning after December 15, 2005.

In May 2005, FASB issued Statement of Financial Accounting Standards No. 154 Accounting Changes and Error Corrections - A Replacement of APB Opinion No. 20 and FASB Statement No. 3 ("SFAS 154"), which is effective for fiscal years ending after December 15, 2005. SFAS 154 requires that changes in accounting policy be accounted for on a retroactive basis.

The adoption of these new pronouncements are not expected to have a material effect on the Company's financial position or results of operations.

Canadian pronouncements

In January 2005, the CICA issued the following new accounting standards, effective October 1, 2006.

CICA Handbook Section 1530: "Comprehensive Income" establishes standards for reporting comprehensive income, defined as a change in value of net assets that is not due to owner activities, by introducing a new requirement to temporarily present certain gains and losses outside of net income. The adoption of this new standard by the Company is not expected to have a material impact.

CICA Handbook Section 3251: "Equity" establishes standards for the presentation of equity and changes in equity during the reporting period. The adoption of this new standard by the Company is not expected to have a material impact.

CICA Handbook Section 3855: "Financial Instruments - Recognition and Measurement" establishes standards for the recognition, classification and measurement of financial instruments including the presentation of any resulting gains and losses. Assets classified as available-for-sale securities will have revaluation gains and losses included in other comprehensive income until these assets are no longer included on the balance sheet. The adoption of this new standard by the Company is not expected to have a material impact.
